CALGARY REPORT ON HOLDINGS OF BEAUMONT WRONG

Has Leases in Different Sections—Officers Say Bound to Benefit.

STOKES-STEPHENS IS A FEATURE OF MARKET

Department Orders That Distinctive Receipt Forms Must Be Used.

(Special to the Capital)

Calgary, May 27.—A report reached this city today that a similar flow of oil to that of the Diagonal had been encountered at three o'clock this morning, but so far there is no confirmation of it. The news spread around the city like wildfire and scores went out to the reported producer, but no signs of oil were seen. It was not long after the news filtered round the city before the stocks in the companies having leases in the immediate vicinity began to soar.

Last week's wild scenes were repeated today. As soon as the report reached the city from Calgary, the stocks of the companies having leases in the immediate vicinity began to soar.

The Reliance company, the first in whose stock has just gone on the market at ten cents, yesterday found a quarter section four miles northwest of the Diagonal and a mile and a half from where the oil is drilling. This morning, on the strength of the reported United strike, the company, most of whose officers are Edmonton men, was offered over ten per cent. more than the amount paid for the lease obtained only yesterday. The offer was, however, refused.

To Drill Several Places.

J. N. Dugg, treasurer and one of the directors of the Reliance this morning stated that the United strike had been confirmed from Calgary, and this was the reason why the offer for the lease was declined. The Reliance has leases in the Nakamun fields and the Victoria, where the district, where the industrial association is drilling for gas, besides valuable holdings in the Okotoks field, so that the directors figure that their stock is bound to become more valuable, no matter which of these three fields prove the best. Mr. Dugg also said this morning that the amount he was drilling in more than one place inside of six weeks.

Another company financed by local men and whose stock should experience much activity from the United find in the Alberta Beaumont field (A. B. C.) the McNamara-Costello firm, which created a big sensation last week when its ten per cent. stock was put on the market.

Calgary Report Incorrect.

The Calgary papers on Saturday contained tables showing the acreage of the different companies. This table presented Beaumont with only 150 acres. This was an error. The quarter referred to is the one on which a prospecting well is being drilled, but it alone immediately. Other properties are section 28, township 34, range 5, west of the fifth meridian, close to where the Monarch is drilling, and section 14, township 28, range 18, west of the fourth meridian, near the Diagonal. With these three leases the secretary of the company states that A. B. C. is in such a position that it will benefit no matter where oil is struck.

Practically every stock went up like a rocket in the city today on receipt of the United news. Wires were received from the head offices of some of the companies in Calgary to inquire about selling and further notice. While others increased their prices, most of the brokers were even higher than during the height of last week's boom, a feature being that there were sales for small blocks of several of the companies.

LAST EDITION. Generally fine and warm; a few scattered showers Thursday.

VOL. V. EDMONTON, WEDNESDAY, MAY 27, 1914. No. 126

NORTHERN JOURNEY OF SUPREME COURT JUDGE DRING JULY

Proposed Trip into Far North is Generally Discussed in Legal Circles.

WILL BE MADE WHILE SUMMER RECESS IS ON

Not Yet Decided Which Member of Bench Will Make This Innovation.

It is probable that a judge of the supreme court will make a long trip in northern Alberta this summer to try cases now awaiting trial. There is a murder case from Fort Vermilion in connection with which a large number of witnesses will have to be produced and it is thought that it will be less expensive for the court to go north than bring all the witnesses to Edmonton.

The proposed northern journey of the court was being discussed around the court house corridors this morning. It is not known which of the judges will make the trip. The court will be sitting in Edmonton till the end of June and it is likely that the trip north will be made during the time that the court is in recess in Edmonton.

There is no civil sitting of the supreme court in Edmonton at present. Chief Justice Harvey is presiding in the appeal court sitting at Calgary. Two cases referred from Edmonton will be heard. These include the case of the C.N.R. vs. the C.P.R. in which S. B. Wosking, K.C., and W. Field are appearing for the Canadian Northern, and Frank Ford, K.C., and G. A. Walker for the Canadian Pacific. Another Edmonton appeal is that of Chapman and Walker against the Consolidated Amusement, Silver, Cross and Hagar, appearing for the plaintiffs, and Emery, Newell and Co. for the defendants.

Criminal Court.

In the case of Chas. Ganter, brought back from the States to answer a charge respecting an offence alleged to have been committed at Morinville, a habeas corpus application was made before Mr. Justice Scott today. The application was adjourned to a later date.

Beta George, a negro, convicted of stealing \$59 from the person of John Macleod, was sentenced to four months in the N.W.M.P. barracks at Macleod.

James W. Fullbrook was found not guilty on a charge of false pretences and discharged.

In the case of Dr. Albert Crux, charged with assault in connection with the effort to recover the custody of his children, the court allowed defendant to go on suspended sentence. C. C. McCaul, K.C., who defended, said there was no ground for a charge of this kind to be laid.

ABOUT TWENTY-EIGHT MILLIONS IS VALUE STRATHCONA ESTATE

London, May 27.—The personal property left by the late Baron Strathcona and Mount Royal, former big game hunter, for Canada, amounted to \$23,237,000. This was disclosed when probate was granted today.

The precise value of the real estate left by the testator who died in London, June 10, 1912, this year, was not made public, but the fact that the duty paid amounted to \$4,189,130 indicates that his entire estate, real and personal, had a value of \$27,528,000.

Earth Shocks Violent.

Catania, Sicily, May 27.—Earth shocks which have been felt daily since the disastrous earthquake of May 4, became more accentuated here yesterday, causing considerable alarm among the inhabitants.

18 MONTHS OLD WAIF IS FOURTH CHILD TO BE ADOPTED BY ELYS.

New York, May 27.—Louis Broas, 18 months old ward of the town of Newburg is now a member of the family of Mr. and Mrs. Robert E. Elys, who have been legally adopted by them. The infant's new name is Wilhelmina Rosebloom Elys. Mr. Elys is the director of the League for Political Education. His wife is Mrs. Rodolphine Schaffer Elys, daughter of Dr. H. R. Elys.

FIRST FREIGHT THROUGH THE PANAMA CANAL HAS REACHED NEW YORK CITY

New York, May 27.—The steamer Cuban, which arrived today from Colon, brought the first freight that came through the Panama canal. The cargo consisted of 11,000 sacks of sugar and was towed through the canal on barges. It is the first cargo to pass through freight.

\$150,000 in Faxes Taken.

Saskatoon, May 27.—Fifty-five black faxes aggregating in value \$150,000, arrived in the city yesterday from Prince Albert and were transferred to the C.P.R. for shipment to Prince Edward Island. This represents almost the entire catch in the north during the past season.

PUGSLEY BEATEN ATTEMPT TO AMEND CLAUSE

Wanted Parliament's Consent to Increase Canadian Northern Stock.

HINDU QUESTION COMES UP AGAIN IN COMMONS

Premier Borden Says That 20 Allowed to Land Because Returning.

Ottawa, Ont., May 27.—The Hindu question was up in the house again this morning when Hon. Frank Oliver asked for further information as to the disposition of the Hon. Dr. Pugsley's amendment. Dr. Pugsley replied that the amendment had been allowed to land because it was a matter of conscience to him to see that the government did not come up to the physical test as to the remainder, the law would be enforced.

Mr. Oliver said he presumed that there would be an appeal to the house, would the government permit such an appeal? The premier retorted that the government did not have control of the course of the debate.

Sir Wilfrid Laurier asked if there was an appeal by way of habeas corpus, would the government permit such an appeal? The premier retorted that the government did not have control of the course of the debate.

Opposition is Inquisitive.

The opposition was inquisitive about the trip of Col. Sam Hughes to Europe had summer and winter to know when the report which was being prepared in regard to the European manoeuvres would be ready. "We were promised the report four months ago," said J. J. Hughes, of P.E.I. "We don't want Col. Roosevelt or any other colored man to go to Europe."

There were many maps to prepare which had delayed the report. Notice will be given today of legislation to guarantee bonds of the Grand Trunk Pacific to the extent of \$12,000,000 in order to complete the British Columbia section.

Work done on Canadian Northern railway resolution was continued. Hon. Wm. Pugsley moved an amendment to provide that the renewal of his license should be made a condition of his company's increased. The resolution as it stands provides that the renewal of government but not parliament W. F. MacLean, of South York, equirerment was concerned, namely, that of provision for regulation of capitalization of railways by the commission, would apply to this legislation.

Explanation by Meighen.

Hon. Mr. Meighen said that the provision of the revised act with regard to capitalization would doubtless apply here, that is, placing a restriction upon any increase of capital, but the provision in the C.N.R. resolution providing that no increase be made without consent of parliament would not be affected by the revised railway act.

With regard to Mr. Pugsley's amendment Mr. Meighen said that the railway was interpreted in the case of the only capitalization in which the government was concerned, namely, that of the main company. There was a regular act of parliament concerning the case of any increase in the stock of subsidiary companies. A standing of the Pugsley amendment was taken and W. F. MacLean, R. H. Bennett and W. F. Nickle voted with the opposition. The amendment was lost and the clause declared carried.

When the first oil gushed forth from the Bonanza field in the Calgary-Okotoks field, the evidence which had been strongly suspected by many Albertans became as plain to everyone as the nose on one's face, namely, that a new era had dawned for Alberta. This province woke up one morning and found that it had become rich practically overnight, not from the comparatively insignificant gasoline spray which issued intermittently from the discovery well, but because the result of being that one little hole in the ground proved that Alberta had oil, the field which had practically revolutionized the commerce of the world in the past decade or two, and that has been well named the magic millionaire maker.

In Edmonton, although offices for the selling of Calgary stocks sprang up like mushrooms in a night and almost the greatest interest was, and is still, taken in that field, things however, took a different turn. The people here were delighted because oil had been struck and Calgary had been made in a few hours the center of the greatest oil boom of all time. But that was not all—the true Edmontonians they looked to the north. Hardly had the Calgary strike been reported than activities became greater in the northern fields, in which drilling had in many cases been going on for many months. As the days passed, these northern fields became more popular in Edmonton. New companies were organized and stocks went up in price just as those of the southern companies did in Calgary.

Leave Calgary for Wetaskiwin.

The most significant feature of this movement was the fact that some of the most prominent oil men of Calgary, including the Herron-Elder group, together about \$15,000 cash came away from their own oil fields, in which excitement at that time, only last week was at fever heat, and blanketed about 30 sections of land in the district west of Wetaskiwin.

Struck With Reports.

The group of Edmonton capitalists who sent these two men to the Wetaskiwin fields were so struck with the reports of both, made independently and each without the knowledge that the other was also making a report, that they at once decided to secure leases on several sections of land, mostly in township 44, ranges 26 and 27, west of the fourth meridian. Just about the time that the two men returned to the city, the two geological experts the Calgary strike occurred, with the result that the Edmonton and Calgary groups filed on the same day last week.

The Edmonton men have incorporated (Continued on Page Seven.)

LICENSE BOARD IS TIGHTENING UP IN HOTEL MANAGEMENT

Renewal of Leland Hotel License to William Cameron is Refused on Ground That Conduct of Hostelry in Past Not Satisfactory—Warning is Issued in Case of Transit Hotel, North Edmonton.

The board of license commissioners at the adjourned annual meeting today had under consideration several city licenses, which were adjourned from the previous meeting. The board showed a tendency to exercise a greater strictness toward the conduct of licenses and in several cases changes in the management of local hotels considered for the renewal of their license.

The application of William Cameron for the renewal of his license was refused. The present license runs to the end of June. The board considered the past conduct of the house was not satisfactory. The elimination of Joseph Laviolette from the partnership of the Transit Hotel at North Edmonton was made a condition necessary to the renewal of the license.

The Queens Hotel, Limited, is undergoing a change of management and the board renewed the license of the hotel on the satisfactory completion of the negotiations. The Brunswick Hotel, which has recently changed hands, was recommended.

An application made by Wilfrid James Cameron for the new license for the Hotel Hotel was not recommended. The board was not recommended on the ground that the license is not required for the public convenience.

Plans were filed for extensive alterations to the Imperial Hotel. Quite a elaborate addition is planned. The renewal was recommended.

The renewal of the license of the Spruce Grove Hotel, Spruce Grove, was recommended subject to the production of the lease by J. E. Laurence. A new hotel license at Mountain Park, west of Edmonton on the C.P.R., was recommended subject to the production of lease and partnership papers to the department. The application was made by T. A. McNaughton and H. G. Powell.

The license of the Palace Hotel, Gleichen, was renewed for the balance of the license year to Felix A. J. J. Thomas Harrison applied for the transfer of the license of the Rossmore hotel at Hittern Lake. The transfer was not recommended and the license reverts to Judd Peltier.

The consideration of applications for the renewal of the following licenses was adjourned to a date to be set by the department:

J. N. Kinnerick, Ritchieville hotel, Edmonton.

William Arnold, Kelly, Senate hotel, Edmonton.

Royal Hotel, South Edmonton.

Royal George Girvin, Grand View Hotel, Edmonton.

J. Larose, Commercial hotel, Edmonton.

the materials Meets every test.

Mr. J. B. Griffith, secretary-treasurer of the Edmonton Portland Cement Co., Ltd., has issued a circular letter to architects, contractors and builders in this city and district, in which he says:

"Continuing our policy of guaranteeing EDMONTON—the Certified Brand—Portland Cement, we have arranged to have all cement shipped from our plant tested and certified by the testing laboratories of the University of Alberta.

"Samples for testing purposes will be taken from each car, before it leaves the plant, by an inspector acting for the University testing laboratories. These samples will be sealed and shipped direct to the laboratory in Edmonton, where tests will be made immediately, and seven days later you will be given a record of these tests.

"All cement should conform to the specifications of the Canadian Society of Civil Engineers, and we feel that you are entitled to positive proof that it does meet the requirements.

"You can, therefore, order EDMONTON—the Certified Brand—Portland Cement with every confidence, as the quality is certified to by an independent laboratory."

VITAL POINTS IN PACIFICATION OF MEXICO REACHED

Mediators Accomplish Much
at Sessions at Niagara
Falls.

RECOGNITION FOR MONEY
BILLS WANTED FROM U.S.

America May Waive Point to
Smooth Road to Early
Settlement.

Niagara Falls, Ont., May 27.—Substantial agreement on many of the vital points involved in the mediation conference has been reached by the American and Mexican delegates. The discussion yesterday covered the actual terms and details of many of the things deemed necessary to pacification. The mediators and the opposing delegates were decidedly optimistic. An early agreement is looked for. The situation was summed up by Justice Laurier upon the authority of the mediators.

"We have begun to discuss the plan of pacification. On a number of them we find ourselves in substantial agreement. Others are still under discussion, and as to them there has been no disagreement. It would, of course, be improper for us to specify the particular points we have discussed or those upon which we have agreed, or those we will consider further."

Vital Points Reached.

From the mediators themselves it was learned later in the day that some of the vital points reached in yesterday's developments. These are understood to include the manner in which the present regime in Mexico will give way to a new provisional government.

That General Huerta has given his consent to the program thus far outlined here was one of the reports from reliable sources, upon which some of the optimism displayed by all parties to the conference was believed to be based.

The Mexican delegates as well as the Americans are anxious that the transition in Mexico City shall be smooth and untroubled by any disturbance. So they are approaching the question of personnel for the new government with extraordinary care and a consciousness of the responsibilities of the Mexican people.

Desiring to avoid the appearance of having had their provisional president elected at an international conference the Mexican delegates have evolved a list of names of representative citizens from which might be selected a man upon whom the U. S. would look with favor from it were chosen by an interim executive. The actual choice of an individual from the list of names of representatives of the Mexican people would be left to the U. S. government. It is assumed here that the Washington government would be willing to assume the responsibility of bringing the constitutionalists into harmony with a provisional government thus created.

A Simple Plan

The plan of pacification so far as it has been developed is known to be a simple one. It has for its object the establishment of a new provisional government. As a program for it, there will be a declaration of principles on agrarian and labor questions and on the conduct of a fair election. After much discussion a fair way of considering the land question practically has been reached. While the Mexicans have not yielded their original contention that the land problem is purely internal and that the

The mediators and all delegates are going to Toronto tonight to attend the Garden party given by Sir John Gibson, lieutenant governor, in honor of the Duke and Duchess of Cornwall and the Princess Patricia, but mediation will not be interrupted long, as there will be informal conferences on the train.

TWO BOYS KILLED IN DUEL OVER DIVORCE

Lexington, Ky., May 27.—Hubbard Minard, 17 years old, and Joe Adams, 15, both members of prominent families, were killed, and Mary Adams, a widow, was wounded in a duel between the two boys near Lexington, Ky., Minard was accompanying Mrs. Adams to a neighborhood gathering, when they encountered Henley.

A quarrel followed. They decided to engage in a revolver duel, the victor to marry the widow.

The boys met by agreement on the bank of Coons creek. At twenty paces each fired. Adams' shot hit Minard in the chest. Minard's shot hit Adams in the chest. Both boys were killed.

Minard was the son of J. B. Minard, county attorney of Leslie county. Mrs. Adams was recently divorced.

HE'LL SOON TELL US
ABOUT THAT RIVER

Solid leather boots; gunmetal, vici old, tan calf and patent leathers—button and lace styles. They have Goodyear welted soles and re-built on the season's most popular and fashionable lasts. Every pair guaranteed an excellent value. Priced the Ramsey way, per pair \$4.50

URGES STATE TO BUILD A PRISON OF DEATH CELLS

Albany, N.Y., May 27.—Dr. Rudolph F. Dierling, of Geneva, a member of the State Prison Commission, in a report to the commission, makes a strong plea for the construction by the state of a central prison for those under sentence of death. He declares the present quarters for condemned men at Sing Sing are dark, inadequate and without modern sanitary facilities. He mentions the action of Governor Glynn in placing a bill providing that hereafter men and women convicted of murder in the first degree and sentenced to death shall be sent to Sing Sing. He therefore states the legislature have been in Albany, Clinton and Sing Sing prisons. Dr. Dierling shows that there is not room enough at Sing Sing for all the condemned prisoners of the state. He declares the present quarters for condemned men at Sing Sing are dark, inadequate and without modern sanitary facilities. He mentions the action of Governor Glynn in placing a bill providing that hereafter men and women convicted of murder in the first degree and sentenced to death shall be sent to Sing Sing. He therefore states the legislature have been in Albany, Clinton and Sing Sing prisons. Dr. Dierling shows that there is not room enough at Sing Sing for all the condemned prisoners of the state. He declares the present quarters for condemned men at Sing Sing are dark, inadequate and without modern sanitary facilities.

Children's Waterproof Capes Underpriced

Hall Runners at \$5.00

Brussels Hall Runners, 27 inches wide and 4 yards long. They are bordered at ends and come in green, blue and red. Strong, serviceable quality runners, each \$5.00

HAMEL IS SAID TO HAVE BEEN SAVED BY FISHING BOAT

Newcastle, Eng., May 27.—The Evening Mail says that Gustav Hamel, the British aviator who had been given up for lost in the English Channel landed today from a fishing boat at Newcastle. The fishing boat which saved Hamel was a fishing vessel which had been driven ashore by a heavy gale and had secured the landing in giving information as to the rescue of the aviator.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at first sign of bladder irritation or

Bachache.

The American men and women must guard constantly against kidney trouble, because we too much neglect all our food is rich. Our blood is filled with uric acid which the kidneys strain to filter out, they then, from overwork, become sluggish, the all-motivative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; four back aches or the urine is cloudy; full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with a headache or dizzy, nervous, indigestion, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then be fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush out and cleanse the kidneys, to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

ADDITIONAL SPORT BUCKLES ALLOWS TEXT HITS, BRONKS DEFEAT HATTERS

Score Was 8 to 1—Loomis
Held Medicine Hat to
Two Hits.

Calgary, May 27.—Gloomy Loomis pitched the best game of the local season here last night letting Medicine Hat down with two hits, the locals winning the game by the score of 8 to 1. The Hatters first hit came in the fifth and resulted in the visitors securing their only run of the game. It was a single by Barth and sent Daniels in from third. Daniels had reached first on a fiddler's choice which cut Bliss off at the plate, stole second, went to third when Buckles was forced out at second by Pileger and scored on Barth's single.

The other Medicine Hat hit came in the eighth and was a clean two-bagger by Moore.

Buckles was touched up for 10 hits by the local aviators, six of them being of the extra base variety.

The game was played here in Calgary by arrangement as it was impossible for Medicine Hat to make the jump from Edmonton home in the time allotted by the schedule.

The Calgary team left last night for its first swing around the circuit and will be away for two weeks.

Score: R H E
Medicine Hat 000 010 000—1 2 2
Calgary 002 028 004—8 10 3
Buckles and Bliss; Loomis and Jones.

GREATER EDMONTON BOYS' BASEBALL LEAGUE OPENING

Last night at the high school grounds the Greater Boys' Baseball league held their opening game before a group of 60 interested spectators. The opposing teams were the Ironsides and the Crescents of the senior section. Both teams played good ball but the Crescents had the edge on their opponents. The feature of the game was the splendid work of Thompson who twirled for the Ironsides, holding his opponents to one miserable hit. Two double plays enlivened proceedings, and on the whole the game was equal to the variety played in some of the men's leagues. The next games will be on Thursday night on the high school grounds when the juniors come together. Thursday nights will be known as adults' night, and the parents and friends of the players are asked to be on hand. The score: 7 to 0 for Crescents.

Brownies—Rutherford, catcher; Yull, pitcher; Hardy, first base; C. Dickins, second base; R. Jones, third base; J. Pile, shortstop; F. Dickins, left field; W. Currie, center field; W. Brown, right field.
Crescents—Pendergast, catcher; Thompson, pitcher; Williams, first base; Spore, second base; Clark, third base; Scoules, shortstop; Hagerman, left field; W. Rankin, center field; J. Jones, right field.

CITY LEAGUE BASEBALL

Four games were played in the city baseball league last evening. The Atlas defeated the Olympics 10 to 0, and the Excelsior City defeated the Athletics 2 to 1. In an intermediate game, Baracas vs. Mike Macs, the latter won 4 to 0.

The Hatters and the Knights of Columbus met on the golf links and the newbies won 7 to 2. The following players were on the line-up:
Knights of Columbus—Whitty, ss; Ellis, 3b; T. Mahony, 1b; Howard, cf; Connors, lf; Reiter, 2b; O'Donoghue, rf; Murray, c; McDougall, p.
Hatters—Chapman, ss; Young, cf; Daniels, c; Bliss, 1b; Tait, 2b; Stewart, 3b; Hepburn, rf; Moran, lf; Gettis, p.

Fire at Acadia College.
Wetville, N.S., May 27.—A disastrous fire occurred yesterday morning at Acadia College, when Chipman Hall, the college residence, and the college gymnasium were destroyed.

HEART WAS SO BAD Could Not Do Her Housework

Many women get run down and are unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung. To all such sufferers Milburn's Heart and Nerve Pills will give prompt and permanent relief.

Mrs. Thomas McVillie, Saltcoats, Sask., writes: "I thought it my duty to write and tell you how much your Heart and Nerve Pills did for me. My heart was so bad I could not sleep, eat nor walk about the house. I could not do my housework at all, and what my husband could not do for me. I had two small children depending on me besides three men to cook for, and I was unable to be able to do anything. My husband had taken some of your pills some years ago, and insisted on me trying them, so I started. I had taken two weeks two weeks I was considerably better, and before I had taken two boxes I was doing my own work again. After suffering from heart or nerve trouble should just give your pills a trial. Or if anyone cares to write me I will gladly give them all the information I know concerning your wonderful medicine."

Milburn's Heart and Nerve Pills are 60 cents per box, or three boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Y.W.C.A. GIVES FIVE EXHIBITION Physical Training and Elocution Classes Show Result of Winter's Work.

A crowd of about three hundred witnessed the gymnastic exhibition and display by the physical training and elocution classes of the Y.W.C.A. last night in the Empire auditorium. The purpose of the exhibition was to show the public something of what the association had been doing during the winter months. The "Y" have had physical training and elocution classes at all three branches of their association in the city and on the south side there has been a junior class for physical exercises. A performance, "Scene from Hiawatha," will be given at Riverside park, south side, Saturday evening at 7.30. The following program was given last night:

1. Grand entry.
2. "Dance of Greeting" (Danish folk dance), children.
3. Scottish folk dance, young ladies.
4. "Chimes of Danforth," folk dance.
5. "Delicate Drill," young ladies.
6. "Stranach," Bohemian folk dance and singing dance, children.
7. Aesthetic Drill No. 1, young ladies.
8. "Mountain March," Norwegian folk dance (guides and tourists climbing mountain), young ladies.
9. Penning display, Miss Gaines and Mr. Scott.
10. "Carousal," or "Merry Go Round" (Swedish folk dance and singing game), children and young ladies.
11. Aesthetic drill No. 2, young ladies.
12. "Shoemaker's dance," Danish folk dance, children.
13. Aesthetic drill No. 3, young ladies.
14. Action song, "Topsy Turvy," children.
15. Aesthetic drill, young ladies.

Personnel of Members in Display.
Young ladies—Mary Anslow, Ethel Bottomley, Amy Bottomley, Gladys Hawthorne, Elsie Hight, Lydia King, Mary Limbourn, Jessie Maddow, Loh McLeod, Pearl McDougall, Myrtle Merrill, Miss Powrie, Val Ribchester, Lila Richards, Isabel Stephens, Cora Smith, Chloe Stuckey, Charlotte Thompson, Olive Thompson, Bena Watson and Miss Brand.
Children—Rolfie Baker, Honora Dyde, Joy Edmonds, Ed Edmonds, Alice Grey, Dorothy Harcourt, Allan Harcourt, Mary McDougall, Jean McLeod, Lester McCall, Alice Stevenson, Anna Watt, Margaret Wight and Gladys Spiera.

C.P.R. DEFEAT HUDSON'S BAY AT SOCCER 1-0

The C.P.R. defeated the Hudson's Bay in a senior soccer game last evening by the score of 1 to 0. The game was played at the C.P.R. Park and refereed Critchley in charge. The winners' goal came in the first half when Porter shot one in from a corner. The game was one of the best seen this season and was fast from start to finish. Following is the line-up of the teams:

Hudson Bay Position C. P. R.
Stone M. K. Kirtan Backs
Miller Haldwin
McNeil Pratt
Mainman Moynes
White Mason
Seaton Butler

Adams Griffiths
Young Porter
Walker Baxter
Crombie Peterbridge
Kew G. E. Kirtan

Tribute to Hamel.
London, May 27.—The British admiral, in announcing last night that he had reluctantly suspended the search for Gustave Humber, the man, of whose safety all hopes were now abandoned, paid the following tribute to him:

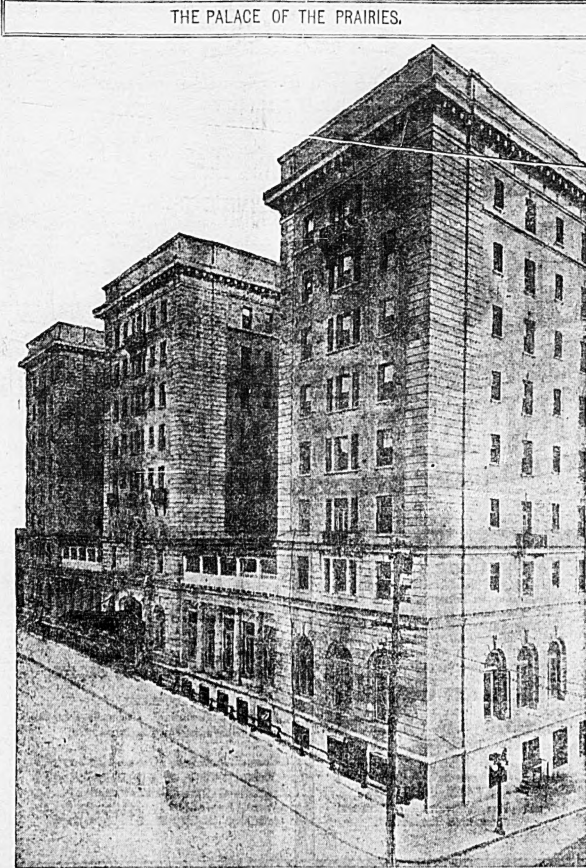

"He was without question the foremost exponent in the islands of an art, the military conquest of which is continually increasing."

Cornell Defeats Harvard.
Cambridge, Mass., May 27.—The crimson of Cornell, rowing their second intercollegiate race in four days in rough water, swept the Charles river last night in the annual regatta with the Harvard crew. The Cornell variety beat the Harvards over the line by slightly more than a length.

Sons of England's Team.
The following players will represent the Sons of England on Thursday night at Diamond Park. Kick off at seven o'clock: Parker, Morgan, Gifford, Aston, Keffell, Eastham, Bradford Gregory, Ockenden, Coward, Jennings, Reserves, Clibbery and Rawlings.

Drifting Tug Saved.
Curling Bay, N.Y., May 27.—A tug drifting more than three and a half miles in the ice floes in the Gulf of St. Lawrence the U.S. naval tug Potomac, which was abandoned in the bay islands, was brought to Portchester, on the northwest coast of Newfoundland yesterday by Consular Agent Gould and a salvage crew. The tug is apparently in good condition and after taking on coal will proceed south.

From Strathcona's Estate.
Minneapolis, May 27.—Attorney-General Smith believes that the estate of Strathcona, which will realize \$150,000 in inheritance taxes from the estate of the late Lord Strathcona, Mr. Smith says the figure may reach \$200,000, but he is certain of the \$150,000. General Smith received an application from the executors of the Strathcona estate to be permitted to dispose of 25,000 shares of the Great Northern railway stock.

The Palliser, the magnificent Canadian Pacific railway hotel at Calgary, will be opened with fitting ceremony June 1. It is a \$2,000,000 monument to the faith of the Canadian Pacific railway management in the future of western Canada, and is one of the finest establishments of its kind in all Canada. It comprises ten stories, basement, ground, mezzanine and seven service floors, with roof garden and sun parlor on the roof. It is constructed of steel and reinforced concrete. Grey Tennessee marble walls, columns of Botticino marble, with sylvan green marble for the bases, with fittings of fumed oak comprise the scheme of the finish of the principal rooms on the first floor, and the plan of the decorations is simple, but exquisitely beautiful.

The plan of ventilation is worthy of mention. Large fans draw the air from the roof, it is forced through cheese cloth screens, warmed, filtered through a sheet of falling water, warmed again, and then forced through registers into the various rooms.

The hotel has been christened "The Palliser" in honor of Captain John Palliser, one of the earliest explorers of western Canada.

**LITTLE GIRL IS RUN
OVER BY AUTO; DIES
ON WAY TO HOSPITAL**

A fatal accident occurred yesterday afternoon, when little Lillie Campbell, the six-year-old daughter of John Campbell, of 401 Bolton street, was run over by an auto and died while en route to the Royal Alexandra hospital. The accident occurred on Willow avenue, N. E. The tender of the car struck the girl on the head, spun her around and threw her under the rear wheel. So far as can be learned the driver was going slow at the time and as soon as the car was brought to a stop, Mr. Scott jumped out, placed the girl in the car and started for the Royal Alexandra hospital at full speed. However, the child died on the road.

The driver, later called at the police station and gave an explanation of the accident, which the police believe was not his fault.

Neck Broken While Plowing.
Winnipeg, May 27.—A stevedore, a farm hand working for T. H. Addison, at Beresford, Man., was thrown from a plow yesterday and in falling broke his neck.

EXPLORATION OF NORTHERN FIELDS BY BIG SYNDICATE

English and American Oil Interests to Go Over Territory in Northern Alberta—Welsh Coal Magnate Says These Fields Will Be Richest in the Empire—Dingman Well to Be Objective Point of Western Dominion Railway.

Ottawa, May 27.—A systematic exploration of Northern Alberta, with a view to the location and development of oil deposits in the remote townships of the province, is contemplated by English and American oil interests, whose representative arrived in Ottawa yesterday.

The territory to be explored is that covered or partially covered by claims in regard to which the period for payment of rental has been extended from time to time, pending negotiations with the British company. These rentals have now been paid up.

Samples of oil from the Calgary fields have been received here. Experts claim that their composition is such as to preclude the possibility of there being large deposits of crude petroleum in the vicinity from which they came.

Start on New Line.
London, May 27.—A. A. Thomas, president of the Canadian Railway Trust, who returned from Canada yesterday, speaks with satisfaction of having secured the franchise and charter for the Pacific, Peace River and Athabasca Railway, also for the Peace River and Transvaal.

Adequate financial provision has been made for the next year's work on the railway, and he hopes to proceed with the street railway very soon. "Oil is going to be one of the chief requisites of the navy," said Mr. Thomas, "the discovery of oil in Canada will be highly important. It is possible if not probable that the projects mentioned above will develop thousands of square miles of oil fields. Scientific investigations already made show that the oil field we are about to tap will be undoubtedly the richest in the empire."

Edmonton Syndicate.
Calgary, May 27.—The Whitford, Taylor, Magrath syndicate completed their purchase here today, having secured a lease to section 22, township 25, range 5, west, one mile removed from the home, where drilling is now going on. They have also options on a section in the neighborhood of the Monarch, east of Olds, which is also being drilled. It is their intention to incorporate for \$1,500,000, and commence drilling at once, a contract has been let to the James Drilling concern.

The name of the company will be the Manx Marine Petroleum Co. In the original syndicate are Chris Norin, Fred Manx, Wm. M. Alderton, of Winnipeg; J. P. Hargrave, of Banff; Fred Whitford, W. J. Magrath, J. E. Walbridge, Joe Dinsell, Ed. Kinal, James Senior, A. Fitcham, J. Davidson, V. T. Riley, S. W. Skinner, W. Steeles and T. A. Blackburn.

Oil Leases Busy.
Calgary, May 27.—The news that the Western Dominion Railway is to construct a line from the Valley from Calgary to the oil fields was announced yesterday. Instead of building 100 miles of road as was intended, it will be met by a branch of the Chicago Milwaukee and St. Paul, now building from Great Falls, Judge Morgan Mann chief counsel for the Chicago Milwaukee and St. Paul company, is on the board of directors of the Western Dominion. The road has been named by joint syndicate of New York and London capitalists and

Detective Fryant, Constable Charles Are Asked to Quit
Two more have been asked to discontinue their duties in the police department after the first of June. The last two to walk to the block are Detective Fryant and Constable F. Charles.

Develops Signs of Rabies.
Regina, May 27.—Dr. S. T. Nichol of Saskatoon, who visited this city a few days ago on his way to the pasture institute at Chicago to be treated for rabies, has developed slight symptoms of this disease, according to a letter which has been received by relatives in the city.

You cannot afford brain-befogging headaches.

Facts About Hughes Electric Stoves

Where are these stoves used?

The City of Edmonton Public Schools use them in their Domestic Science Classes. In Winnipeg, there are over three thousand of these stoves in use. The University of Chicago uses them in the School of Domestic Science. The Ohio State Normal College uses them in their School of Domestic Science.

The British, India, South Africa, Japanese Governments, Argentine Republic, all use the Hughes Electric Stoves.

What would the average monthly bill be for a family of say, four or five in Edmonton? At 40 per Kilowatt, cooking breakfast, dinner and supper for one month's bill would be approximately \$1.50.

The above will be Effectively Demonstrated at the Electrical Show this Week.

Electric Household Helps

ELECTRICITY is the model servant, always ready for any household task. Every woman approves the cleanliness, safety and convenience of electric household appliances. They save her miles of tiresome steps in cooking, ironing, sewing, washing and other household duties.

The electric way is clean—no soot or ashes. It is absolutely safe because there is no flame to endanger clothing and lives. It is convenient because electric devices are always ready for use.

Handsome in appearance and highly finished, Westinghouse Electric household appliances are an ornament to any dining table. As presents they are highly appreciated.

Another point—each piece of Westinghouse Electric Ware described in the following pages has its own individual heater. There is no waiting—all can be used at once.

Westinghouse Electric Ware has won an enviable reputation in the household for the same reasons that Westinghouse Electric power motors, transformers, meters, generators and other machines are considered the best in all industries—Westinghouse goods are built to last.

Housework is a Real Pleasure When You Use Electricity for Home Cooking

Do you realize the convenience, the cleanliness, the real economy of electrically heated household appliances? And do you know you can have them as willing servants, doing your bidding—your ironing, cooking and heating?

Look over the list of electrically-heated appliances at our store. Any of these can be used on a lamp socket. Simply take off the light bulb and screw in the socket plug which is furnished with the appliance. On the other end of the flexible cord is a switch plug. Push this into place and the appliance begins to heat immediately. The moment you have finished—pull out the plug—and the flow of current stops—also the expense!

So you see the cost of using these appliances is very low indeed. It is hardly to be considered when one also includes their great convenience and handiness.

Convenience and economy, however, are not the only things—think how cleanly and sanitary they are.

Think how much better coffee is, when percolated in an electric machine—how crispy and appetizing the toast is, that's made on an electric toaster—and as for chafing dishes—well, you'll never really know the pleasure of using a chafing dish until you have tried El Chafin.

Now you can afford to do your regular cooking by electricity. El GUSTO makes this practical for the first time.

This new Hotpoint Stove, which utilizes the glowing-coil-and-reflector principle, is so effective with so little current that it does the kitchen cooking with the small amount of current from any lamp-socket.

Notwithstanding this, it sells at a lower price than any other electric stove of equal capacity.

HOME-COMFORTS

—El Geeko, the new electric fireless cooker, is ultra-convenient in the home; simply put in the food, set the dial and turn on the current. That's all! The automatic control does the rest—it cuts off the current as soon as the oven reaches the required temperature, and your cooking is completed at no additional expense whatever!

—El Belle, handy for heating liquids—quick, hot drinks in the evening—shaving water—or baby's bottle—kitchen and hospital uses.

—El Gentle, fine for cold feet, rheumatism or any of those afflictions where a gentle heat is required. Supplants the hotwater bag.

—The Utility Outfit, is one of the most convenient traveling kits to include in your steamer trunk. Warm water or other liquids, irons and heated curling tongs—and El Percol you never tasted such good coffee.

—or El Toast, which saves running back and forth to the kitchen for the breakfast toast.

—El Chafin, which makes the entertainment of little social parties such an easy task—no task at all!

—El Stove, does about any kind of cooking you could accomplish on a one-plate stove—but does it quickly, with comfort and coolness.

—then there's the Hotpoint Iron! One of women's greatest of all comforts—the privilege of ironing without the warmth and discomfort of the old way. Do you know its delight?

We want YOU to know.

—we want you to appreciate their comfort and convenience and economy. We want to demonstrate these devices to your satisfaction. Let us do it—Today.

The Passing of the Household Drudge

There is an old saying that a woman's work is never done. There is no six o'clock whistle for her.

That's true; there are duties and responsibilities in the household that run right on for twenty-four hours a day; and, yet—

The household drudge, the woman who slaves from morning till night with never an hour for herself, is rapidly becoming a thing of the past. A woman has no right to make herself old and careworn with hard manual labor nowadays, because—

There are better and quicker ways of doing things; ways of saving time, lightening labor and doing away with household drudgery.

Most women today find time to spend a few hours now and then at church, at the club, visiting friends, attending a matinee or in other enjoyable or profitable ways.

These women are mostly good housekeepers because they know how to attend to the housework and to do it right with the least expenditure of time, energy, and money.

be carrying on another operation above the coils, baking your cakes, frying your potatoes, etc.

Chops

Chops are broiled in El Grillo the same as cutlets except that ordinarily they are not breaded. Turning occasionally will prevent all loss of the rich juices of the meat.

Spaghetti with Tomato Sauce. Cook the spaghetti in boiling water for twenty or twenty-five minutes or until tender. Sift half a can of tomatoes with a small piece of bay leaf and if you want a smooth sauce strain through a sieve, but this is unnecessary. Add one teaspoonful of sugar and one teaspoonful of salt, one teaspoonful of onion extract and paprika to make it as hot as desired. Stir in one tablespoonful of corn starch dissolved in cold water and one tablespoonful of butter and let it boil up. Turn this sauce over the spaghetti and sprinkle a teaspoonful of grated cheese over the top.

Agents:—Depew-Hillas Co.

Burnham-Frith Co.

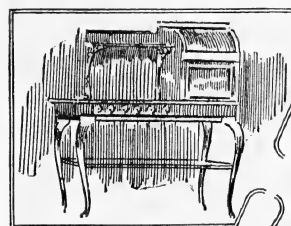

Steaks:

A small steak can be broiled to perfection in El Grillo, proceeding the same as for chops. Hamburger steak can be either broiled below the coils in the deep pan or fried in one of the other pans above the coils.

Broiled Bacon

Have the bacon cut about five slices to the inch. Place it in the middle pan on the corrugated tray so that the grease will run off. In about two minutes turn and in a couple of minutes more turn back to the first side. In five or six minutes your bacon will be perfectly broiled and free from grease. At the same time you can

The Stove That Cooks the King's Dinner is within Your Reach

The
Hughes
Electric
Range
is used
in the
kitchens of
Royalty
and wealth
Yet the
moderate
home can
afford it

The electric stove is no longer a toy. The Hughes Electric Range beats the gas and coal stoves in every style of cooking. It roasts perfectly. It bakes bread, pies, etc., excellently. Or, it gives a low, slow heat for stews, corned beef, etc. It surpasses even charcoal for broiling. It is supremely the lady's stove—no gas, smoke, soot, odor, ashes. No waste of heat, no overheated kitchen.

Hughes Electric Ranges

Come and see this wonderful stove.

COOK WITH ELECTRICITY

Not many years ago women were cooking with wood and coal for fuel. Building the fire was an every day task. Then came the gas range, and one had only to strike a match, and the fire was burning. But what would our grandmothers have thought of cooking without either fire or flames? To start the cooking by turning a switch, to bake a cake in an oven heated by some mysterious current, instead of by open flames, would have seemed as impossible a thing to them as did the thought of flying to our grandfathers.

But cooking by electricity is now enough for every woman to be familiar with the old fashioned ways, with all the dirt and soot, bother and delay, discomfort and danger incident to flame cooking. And how we welcome a relief from all these annoyances.

The woman who cooks with electricity works in comfort. The room is neither overheated by a hot coal range nor full of unpleasant fumes from gas. She builds no fire—doesn't even light a match. A turn of the switch and the heat is on.

ALTERNATIVES TO BORDEN'S POLICY ON C. N. OFFERED

Hon. Dr. Pugsley Moves
Amendment to Reduce Capital
Stock to \$30,000,000
MACKENZIE AND MANN'S
LIABILITY \$28,000,000

This is Extent of Personal Credit
Pledged on Account of
Outstanding Debts.

Ottawa, May 27.—Despite the great heat which prevailed, the members of the house throughout three sittings yesterday kept pounding away on the details of the C. N. R. resolutions which are now in committee. The talk throughout the day was confined to less than a dozen members. On the opposition side there were six or eight members who have made a study of the resolutions which kept Premier Borden and Hon. Arthur Meighen busy answering questions and replying to criticisms. It must have been a tiring day for Mr. Borden and his chief lieutenant in this fight, for throughout the day they were constantly rising to their feet.

Person Liability

Probably the most interesting discussion of the day arose in the afternoon when the question of the extent to which Mackenzie and Mann are personally liable was under discussion. Mr. Borden said that they had been called upon to give security for 28 millions of contingent liabilities owed to the banks and eight millions owed to various subsidiary railway companies. If the securities already arranged for were not sufficient they would be called on to put up more.

Sir Wilfrid Laurier with Mr. Carvell and other liberals maintain that all the government had done was to make Mackenzie and Mann give guarantees to pay their own debts. Mackenzie and Mann should be called upon, they argued to put up personal security for

the 42 millions to be guaranteed by the government.

Mr. Borden replied that the government had gone further than any former government in dealing with a railway company.

Dr. Pugsley's Plan

At the evening sitting Hon. Dr. Pugsley gave notice of an amendment to the resolution in the following particulars.

(A) To provide for the reduction of the issued capital stock of the C. N. R. to 30 million dollars par value, subject to the right to make provision for an addition thereto of an amount not exceeding 25 million dollars if it should at any time become necessary for the purpose of covering the income charge controversy debenture stock.

(B) To provide for the transfer of sufficient shares to qualify the directors to the receiver general to be held by him in trust for his majesty.

(C) For the holding of the said stock by his majesty for the period of five years.

(D) To provide that in case no default is made by the company in the payment of interest on the bonds of the company to be guaranteed by his majesty, as provided by said resolution and in case the conditions of the said resolution and the agreement therein provided for shall be in all other respects carried out, during such periods of five years, the stock shall be transferred to Mackenzie and Mann company, limited, or their nominees, unless his majesty, through the governor in council, should exercise the option herein after mentioned.

Five Year Option

(E) To provide that the governor in council shall have the option at any time within such period of five years to acquire the absolute ownership of said stock and of the said C. N. R. system and of all the constituent and subsidiary companies mentioned in the said resolution and the agreement, subject to existing encumbrances, and to said arrangements regarding the conversion of said income charge convertible debenture stock, for a price to be fixed by arbitration, but not to exceed the sum of 20 million dollars, being the par value of such stock so to be reduced as above provided.

(F) To provide that until default is made in the payment of interests or in the carrying out of other provision of the said resolution and agreement or until the governor in council exercises such option, the nominees of Mackenzie

and Mann company, limited, should be the directors of the company and in control of its affairs.

Hon. Meighen's Reply

Hon. Mr. Meighen in reply, said he presumed this new railway policy was intended to supplant those which had been announced already by the leader of the opposition and by Hon. Mr. Graham.

"I speak for myself," interrupted Mr. Pugsley.

Mr. Meighen added that this policy would mean nothing more nor less than to allow the railway to go into the hands of a receiver just as soon as possible. It was the direct opposite to what had been put forward by Sir Wilfrid Laurier and Hon. Mr. Graham, namely, that the said must not be allowed to go into the hands of a receiver. The proposition was absurd that Mackenzie and Mann should undertake to make this road a success and leave to the dominion the power to take it away from them if it was a success. It was, said Mr. Meighen, a policy that would mean the steady march of this system to a receivership and all the consequences that would follow upon it.

Sir Wilfrid Laurier again inquired as to whether the rates on the Canadian Northern Pacific would be under the jurisdiction of the board of railway commissioners. Would this agreement supersede the existing agreement between the C. N. R. and the government of B. C. in regard to the rates?

Premier Borden replied that it would. No other policy was possible. The Canadian parliament would have to have control. The government had the right to insist and did insist that the rates should be under the control of railway commissioners.

Hon. Charles Murphy asked if the government of B. C. had made any representations in respect to the matter, where upon Premier Borden read correspondence which passed between him and Sir Richard McPherson. In these communications, Mr. Borden told Sir Richard, in effect, that the board of railway commissioners would have to have control and Sir Richard acquiesced.

Sir Wilfrid Laurier observed that it was too bad that Mr. Borden did not have the same regard for the Wellfairs of the dominion as a whole two years ago when he voted the C. N. Pacific a subsidy of \$12,000,000 a mile and declined to do what he now admitted was in the general interest.

The house rose at midnight, 14 out of 25 of the resolutions having been passed.

HUNDREDS OF VISITORS ARE CROWDING ELECTRIC SHOW AT OLD CHURCH

Yesterday afternoon Mayor McNamara formally opened the Electrical Display in the old Presbyterian church on the corner of Third street and Jasper avenue.

Ironing, cooking and heating appliances are on display and in fact everything of an electrical nature that will help to make the work for the housewife easier.

Not long ago women were cooking with fuel and wood entirely; now the majority are taking advantage of recent discoveries of new devices, and in this way saving time and health.

Demonstrations are being given which are attracting great interest, showing the advantage and different manner in which to use these electrical utensils. One can call and have a cup of coffee cooked to the king's taste over an electrical heater or have a piece of cake baked in an electrical oven.

Hundreds of visitors are calling every day at the old church and the expressions of pleasure with which the people meet the display is very gratifying to the men in charge of affairs.

KRONING OFFERED POSITION AS CHIEF OF DETECTIVE FORCE

It was officially announced this morning by Acting Chief of Police Wright, that Charles Kroning, ex-detective, and at the present time occupying the position of chief detective for the western section of the Grand Trunk, will be offered the position of chief detective in the Edmonton police force. The salary will be the same as paid to ex-Captain Simpson. If Mr. Kroning accepts the position he will take over his new duties on the first day of June.

Ex-Detective Schreyer arrived in the city this morning. It is understood, in answer to a message from Commissioner Booth. Seen later at his office the commissioner stated that Mr. Schreyer would not be taken back on the force. The reason for this he refused to state.

R. F. Bryant, who was dismissed from the force yesterday, stated that there was a wrong impression created. He denies that he was a member of the force. He states that he has merely acted as a special detective working under Detective Seymour and that he has merely acted as a special detective working under Detective Seymour and that he

The "Force" of Herpicide.

Even the first application of Newbro's Herpicide (THE ORIGINAL GERM-REMEDY FOR DANDRUFF) shows the hair-saving satisfying "force" that is in it. This "force" is the sum of two characteristics that are united in Newbro's Herpicide. It has the ABILITY to eradicate dandruff contagion and the QUALITY that delights those who wish a dainty hair dressing.

It holds the secret of popularity and pleases every one who is discriminating enough to have a preference. It is not sticky. It will not darken the hair. The remedial effect of Herpicide is sometimes little short of marvellous, for after the dandruff contagion is eradicated, and kept out of the scalp, the hair is bound to resume its natural beauty. It stops itching on the scalp almost instantly.

More men and women have gotten positive results from the use of NEWBRO'S HERPICIDE than from all other hair remedies combined.

SATISFACTION GUARANTEED.

Send 10 cents in stamps to THE HERPICIDE COMPANY, Dept. 115B, Windsor, Ont., for sample.

Two sizes—50c and \$1.00. At all Toilet Goods Counters. When you call for Herpicide do NOT accept a substitute. Applications at prominent Barber Shops.

GEO. H. GRAYDON and E. M. CARPENTER, Special Agents.

was a member of the force. He states that he has merely acted as a special detective working under Detective Seymour and that he has merely acted as a special detective working under Detective Seymour and that he

Village in Peril of Fire.
Moncton, N.B., May 27.—Fanned by a high wind which broke out at Berri Mills, 8 miles from here yesterday afternoon, destroyed seven buildings with a loss of about \$10,000. A change in the wind saved the village.
